## Mindful Approach

At Under Canvas, their mission is to inspire connections with extraordinary places, people, and the planet by enhancing access to the outdoors. The brand upholds its mission with its *Mindful Approach*, which comes to life through everything they do: from the design choices they make, to the experiences they curate for guests, to the operational initiatives that they implement to help protect and preserve the natural environment.

- Thoughtful Innovation: As pioneers in the outdoor hospitality space, Under Canvas remains committed to employing thoughtful, low-impact development and operations initiatives across its destinations. They focus on intentionally integrating their camps into the surrounding natural environment and prioritize recycling, solar power, and carbon offset practices whenever possible.
- Resource Conservation: Under Canvas conserves water and energy with pull-chain showers, low-flow toilets, faucets that automatically shut off, low-level lighting, and a towel-reuse program. Accordingly, Under Canvas camps use significantly less water and energy than a hotel of similar size. Rechargeable USB battery packs are used in guest tents, and electric vehicle charging stations are available at select locations for guests to use throughout their stay.
- International DarkSky principles: Under Canvas works with DarkSky International to enhance sky quality, minimize their lighting impact, and educate others on the importance of protecting and preserving the night sky. All Under Canvas camps adhere to DarkSky principles, and five of them are officially DarkSky-certified—making those camps the first DarkSky-certified lodging properties in the world.
- Land Conservation: Under Canvas destinations are designed to minimize disturbance and maximize open space. As such, they maintain dedicated, undisturbed green spaces at each camp.
- In Good Company: Under Canvas partners with brands that align with their mission and values—and share the same care for the planet. For example, plant-based EO® bath products are made in a zero-waste facility, West Elm furnishings support sustainable initiatives, and lululemon is committed to 100% renewable electricity for their owned and operated facilities.
- Unplug and Recharge: Wi-fi is intentionally not offered to guests so that they can disconnect from technology and reconnect with others.
